Xytu® BT538
Water Repellent for Rock Wool

Product Description

Xytu® BT538 is a water repellent for rock wool. Adding a small amount during rock wool or glass wool production gives the finished product good water repellency.

Xytu® BT538 can be diluted with water at any ratio. Select the dilution ratio based on the required water resistance and apply by spraying or another suitable method. The dosage is 0.2%-2.0% of the total mass of the substrate being treated.

Product Features

• Good water repellency, with a hydrophobic surface after treatment.

• Very good compatibility with phenolic resin.

Applications

Blend Xytu® BT538 into phenolic resin at a recommended dosage of 0.5%-1.0% relative to the phenolic resin.

Product Data

Solids content	50 ± 1%
Viscosity at 25 °C	200-500 mPa·s

Storage

Store at 5-30 °C. Shelf life: 6 months.

Packaging

50 kg or 200 kg.
