Xyjiao® LC141
Water-Resistant VAE Emulsion

Product Description

Xyjiao® LC141 is a self-crosslinking ethylene-vinyl acetate copolymer emulsion with good wetting and bonding properties on a variety of substrates. It forms strong, durable bonds and offers good resistance to high temperatures. It is particularly suitable for textile bonding applications requiring high water resistance.

Product Features

- Strong water resistance
- Strong wet tack
- Good compatibility with plasticizers, solvents, fillers and other additives and auxiliaries

Applications

- Adhesives for printing and paper packaging
- Woodworking adhesives
- Textile laminating adhesives

Product Data

Solids content (%)	55 ± 1
Viscosity (25 °C)	3500-5500 mPa·s
Film-forming temperature (°C)	0
pH	2.5-4.5

Storage

5-30 °C. Shelf life: 6 months.

Packaging

50 kg / 1100 kg
