Xytu® LF763D
Carboxylated Styrene-Butadiene Latex

Product Description

LF763D is an anionic aqueous dispersion based on a copolymer of styrene and butadiene.

LF763D contains no plasticizers, phthalates, APEO, formaldehyde, ammonia, etc.

Product Parameters

Solids content:	51±1%
pH:	7.0 - 9.0
Viscosity:	50 - 300 mPa·s
Glass transition temperature:	14 °C
Density:	Approx. 1.04 g/cm³

Product Applications

Rigid and semi-flexible waterproofing mortars

Tile adhesives, repair mortars

Bonding agents, interface agents

Leveling mortars, self-leveling compounds, etc.

Storage

Shelf life is 6 months when stored unopened at 5-37 °C. After prolonged storage, stirring before use is recommended.

Packaging

200 kg, 1000 kg.
